**EP Mini**

1.5" tri-clover fittings  
10 GPM  
110V or 220V power  
Forward & reverse switch  
Fixed speed

EP- Mini is the smallest flexible impeller pumps that Liverani offers. With its simple design, easy operation and affordable price, makes this pump a perfect starter.

**Midex VFN**

1.5" tri-clover fittings  
25 GPM  
220 Volt, single phase power  
3-phase motor  
50 ft cord with remote, forward & reverse and speed control  
A.C. frequency variable speed drive

The Midex VFN is a flexible impeller pump head from Liverani. The VFN uses a precision machined head made of Stainless steel casting; this precision construction allows the Midex to reach 3 bar of pressure. The Midex-VFN pump has a TB Wood's variable speed frequency drive; this allows the speeds to be controlled from the digital control panel on the pump or with the remote control. Another unique function of the Midex-VFN also allows the pump to be controlled by your Monoblock when bottling. The Midex-VFN can operate on either single phase or three phase 220 Volt power.

**Flexible impeller pump**

Liverani's flexible impeller pumps are made of food grade rubber that rotates inside an eccentric Stainless steel housing. Flexible impeller pumps are simple and economical to use, they are self priming and capable of lifting wine up to six meters. Due to the forgiving nature of the rubber impeller, they can pump liquids with suspended particles such as seeds and skins without damage.

Self-priming (automatic priming of the product up to 6 meters even from dry start-up.

Excellent priming action even at a low RPM. Allows for transfer of soft and fragile fluids, with solid parts in suspension, without causing airlocking, and avoiding emulsifying or damaging solid parts.
